Abdul Rehman

Frontend Developer

With a Focus on React.js

Lahore, Pakistan +923044143107 |LinkedIn |GitHub

Born 06/12/2002. official.mani168@gmail.com

TECHNICAL SKILLS

JavaScript (1) | HTML (2) | CSS (2) | Bootstrap (2) | Git (1) | React.js

Work

1- **Personal Portfolio / https://github.com/HereAbdul/Personal-Portfolio**
Personal Portfolio with JavaScript, Html, and CSS This Project is fully responsive and has a dark and light mood. In the about section, I make download CV button where you download my CV.

2- **Learning Landing Page / https://github.com/HereAbdul/Learning-Landing-page.git**
Learning platform Landing page of school with JavaScript, HTML, and CSS. In this project you purchase many courses online. I also made a registration form with validation using JavaScript.

3- **Weather App / https://github.com/HereAbdul/Weather-App.git**
Simple weather app with JavaScript by using web API. In this app I use async and await functionality.

4- **Search Cards with React.js / https://github.com/HereAbdul/Search-Cards.git**
Search cards with React.js by using Hooks with creating components.

5- **Crud app / https://github.com/HereAbdul/Crud-app.git**
Crude app with JavaScript. Where you write your today work done information and save in new row you can also edit or delete the row.

6- **Ecommerce Website / https://github.com/HereAbdul/Ecommerce-project.git**
Ecommerce website with JavaScript. In this project you add many items from product shop to Cart to buy in future and delete the product. The more items you add to the Cart the more the price will accumulate.
